

Telescr.in guarantees the impossibility of exit scam in the KripTRON smart contract

This document confirms that the smart contract of the kriptron.net project on the TRON platform has been verified for impossibility of scam exits.

The audit was carried out by the blockchain development team of the [Telescr.in project](#).

The telescr.in team warns that this contract was checked by the "light audit" service, which means that **only the possibility of exit scam was checked**. The contract code has not been investigated for third-party access, vulnerabilities, mathematical errors, and more. In this case, the telescreen team is not responsible for the loss of investors' funds in any other case, except for the exit scam. This page is not valid without a second page with signatures.

Contract address: [TKGWnk22PF6TA9bzVMb7DBHdU8sTJ9R6h6](#)

[Digitally signed.](#)

Additional information

The telescr.in team within this audit framework is not responsible for the developers or third parties' actions on the platforms associated with this project (websites, mobile applications, and so on). The audit confirms and guarantees only the smart contract correct functioning in the revision provided by the project developers.
